REQUIRED FONTS

WHERE TO FIND THE FONTS

1. Go to:

      fontfabric.com – Bebas Neue (bold);

      fonts.google – Pacifico (regular);
      fonts.google – Rubik (black).

2. Install these fonts in your OS and you are ready to open the project.

3. Feel free to use the fonts that suit your needs better than chosen ones.

AUDIO TRACK

HOW IMPORT MUSIC

1. Navigate to audiojungle.net and purchase audio track by Online Planet. For demo we used a version with 00:28 seconds duration.

2. Import this track in the project and open: "Audio-Placeholder".

3. Place the audio track in this composition and move to the next step.

PLACEHOLDERS

HOW TO CHANGE TEXT

1. Open the composition: "Text-Placeholder-N".

|			
■	∨ 📁 Placeholders		REPLACE MEDIA/TEXT HERE
■		🖼 Audio-Placeholder	
■		🖼 Text-Placeholder-1	
■		🖼 Text-Placeholder-2	
■		🖼 Text-Placeholder-3	
■		🖼 Text-Placeholder-4	
■		🖼 Text-Placeholder-5	
■		🖼 Text-Placeholder-6	

2. Enter your text while keeping it centered in the composition window or aligned to the guides.

3. Note that design elements in the project that should not be edited are mostly hidden and locked. Access them by turn off the Shy switch.

4. In some compositions, Layer controls are hidden as well (Shift+Cmd+H).

5. Most of the text elements are animated in parent compositions, you have to just replace text layers, and you are done.
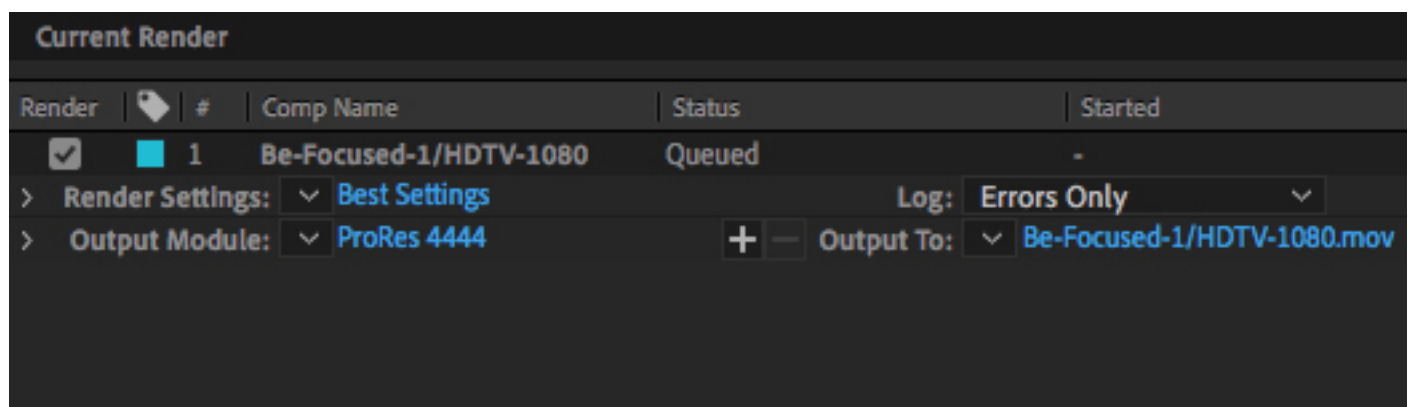

FOCUSED

HOW TO MAKE THE FINAL RENDER

1. Open one of the selected compositions.

2. Add it to render queue, set up settings and fire up the render.

THANK YOU FOR BUYING THIS TEMPLATE

If you like the purchase please take a minute to rate it. Customers feedback is important to us. Support and customization service will take place via the contact form on our profile page.
